Fit check

- **Measure your foot.** Stand on paper with your heel against a wall, in a ski sock, with weight on the foot.
- **Shell fit.** Pull the liner out, stand in the bare shell with your toes touching the front, and look at the gap behind your heel.
- **With the liner in,** your toes should touch the front when you stand up straight and pull back slightly when you flex forward.

Sizes are estimates built from published maker and retailer charts; the sources are listed on the web page. Check the size chart for the exact model you buy. Free to print and share. © 2026 GearSizeChart.com
